

CONFERENCE AT A GLANCE

Who we are...

The Gender and Education Committee is responsible for “fostering attention to gender issues in the CIES and promote the inclusion and professional development of women.”

The Committee organizes an annual symposium at the CIES conference, to which all CIES members are warmly invited.

Symposium presentations reflect the breadth, depth, and quality of the research, programming, and advocacy occurring in the field of gender and education.

The Committee also hosts events including pre-conference workshops, lunchtime speakers, and networking receptions; and engages in research on the inclusion of women in CIES and the annual meeting.
